

# Ji2 Newsletter

March 2010

## IN THIS ISSUE:

- 1 New Product: Samurai "DEMI XG3030"
- 2 Hard Drive Destruction & Recycling:CrushBox HDB-15 (J-HDB-15), CrushBox DB-30PRO II (J-DB-30)
- 3 Training Monthly Data Recovery Seminars

## UPCOMING EVENTS:

- APRIL 15-16:**  
Ji2 Data Recovery  
Training Cypress, CA
- MAY 20-21:**  
Ji2 Data Recovery  
Training, Cypress, CA

## Dear Ji2 Clients,

As we approach the end of this year's first quarter, we have some new information and announcements to share with you.

We have a brand new product, the Samurai "DEMI XG3030" to introduce, as well as information on two of our newer items, the CrushBoxes.

The Ji2 Staff

### Brand New Product: Samurai "DEMI XG3030" NEW SAMURAI "DEMI XG3030" Universal Hard Drive Duplicator

#### Product Details

Part Number: Y-3030A

Retail Price: \$6,990

Available by mid-April 2010; the new Samurai is an All-in-One Interface Hard Drive testing, wiping, duplication, analysis, data recovery, and forensic acquisition. Interface support includes **SAS, Fibre Channel, SCSI** and **SATA/ATA**.

Built on native SAS platform with 3 ports (1:2 duplication); the Samurai is lightweight and compact enough to be carry to any location. The base unit is shipped with SAS/SATA/ATA configuration. Customer can opt for SCSI and Fiber Channels module separately.

Unlike software solutions, the Samurai is all hardware-based technology for more advance and faster duplications. Duplication transfer rate is up to 6GB/min for stable drives, advance Bad-Sector Skips function at milliseconds is just two reasons why the Samurai is better than PC based or software based duplicators.

#### **Key Features:**

- Fast multiple copy functions up to 6GB/minute
- Advance Bad-Sector Skips functions
- Secure Data erase functions (Compliant with NSA & DOD)
- HDD Diagnostic and Testing for QC
- Repair bad sector and HPA on/off(bad sector reassignment and bad sector clipping)
- SMART Test/Status

- Universal Interface: **SAS, Fibre Channel, SCSI** and **SATA/ATA**
- Cross Interface duplications; example SATA/SCSI or SAS/ATA

**Specification:**

- **Interface:** SATA I/II, SAS ~ Optional: SCSI, Fibre Channel
- **Ports:** 1:2 ports for Duplication (1:1 for Fibre Channel) ~ 3 ports for Test/Repair/Erase (2 ports for Fibre Channel)
- **Host Interface:** Lan (1000Base-T/100Base-TX/10Base-T)
- **Interface Mode:** Supports all manufacturer's ATA/SATA/SAS/SCSI/FIBRE CH., Forensics Acquisition (MD5, SHA-1, SHA-256)
- **Power Control:** AC 100V ~ 240v (50/60Hz)
- **Dimensions:** 350mm x 226mm x 78mm (W x L x H)
- **Weight:** 4.8Lbs
- **Options:** SCSI and Fibre Channel modules

## Hard Drive Destruction & Recycling

Hard drive destroyers/crushers are capable of physically destroying various media, including hard drives, CDs/DVDs, cell phones, and floppy disks, ensuring that the data on the media is completely unreadable. Our fast & reliable solutions are ideal for environment-friendly and low-cost media disposal, parts recycling and data loss prevention.

**Product Details**

Part Number: J-HDB-15  
Retail Price: \$3,490

**Product Details**

Part Number: J-DB-30  
Retail Price: \$8,970

## Training Opportunity: Monthly Data Recovery Seminars

There has been growing interest and continued success with our monthly data recovery seminars, so we are pleased to offer the following dates for our last monthly seminar for 2010:

April 15<sup>th</sup> – 16<sup>th</sup>  
May 20<sup>th</sup> – 21<sup>st</sup>

These classes will have no more than 4 attendees each, to allow for a personalized learning environment and one-on-one tutoring for each attendee

**Where:** Ji2 Inc offices in Cypress, California

**Topics:** Hard drive anatomy, diagnostics, repair, and cleanroom procedures with visual presentations and hands-on learning at every step. (Special topic requests will be considered.)

**Instructor:** All courses will be conducted by the Ji2 Inc. Data Recovery staff.

**Why:** These courses are a great opportunity for new employees to become familiar with data recovery procedures, as well as for more advanced technicians looking for a chance to practice and build on skills they already have.
